## AIE PROGRAM SYNOPSIS

The New Jersey State Council on the Arts (NJSCA) sponsors a multifaceted arts education program funded through state appropriations to the NJSCA, major grants from the National Endowment for the Arts and contributions from a growing network of arts agencies, schools, corporations and foundations.

**The Artists-in-Education Program (AIE)** is the cornerstone of that total arts education program. The goal is to make the arts a basic part of quality education for all NJ students, pre-kindergarten to grade 12 through long-term residencies with professional teaching artists. All AIE residencies focus on direct learning of the arts and the processes of creating art, including the skills, techniques and concepts of the art form. The AIE program places highly qualified professional artists in classrooms throughout the state. Students and teachers are engaged in and learn about the creative process through this work with AIE artists. Residencies are offered in a wide variety of arts disciplines and vary in length from 20 to 100 days, depending on the discipline, the needs of the school/school district and the residency design. Artists are placed at schools according to these specifics. AIE artists are selected for their artistic qualifications and their abilities as educators. ◆◆◆

## NJSCA AIE PARTNERS

Panels employ uniform evaluation criteria that stress excellence in all pertinent areas (see Evaluation Criteria contained in the Narrative section of this booklet). Panels review an applicant's demonstrated professional ability and artistic strength of their work based on submitted support materials. The panel evaluations are forwarded to the NJSCA for recommendation of approval. ◆◆◆

## NOTIFICATION

Applicants will be notified in writing of the Council's decision in late May 2010. Artists are accepted into the program for a three year term.

*Artists should be aware that acceptance onto the roster does not guarantee residency work. ◆◆◆*

## RESIDENCY PROGRAM PROCESS

Schools hosting AIE residencies work in partnership with the AIE Consortium and the NJSCA in selecting artists for their residencies. Once school grants are announced, artists are contacted if there is a project in their area of expertise. The artist's honorarium is \$275 per residency day. ◆◆◆

## MENTOR PROGRAM

All newly approved AIE artists selected to conduct residencies are assigned a mentor artist. Mentors, experienced AIE residency artists, work with new artists for three days early in a residency. The mentor artist submits a brief evaluation report to the NJSCA and the new teaching artist to assist them in developing their residency work. ◆◆◆

## New This Year

The AIE Residency Handbook [www.njaie.org](http://www.njaie.org) see inside front cover for details. ◆◆◆

## ARTIST TRAINING PROGRAM

All approved AIE artists are encouraged to participate in professional development workshops offered throughout the year by the AIE Consortium. These workshops focus on providing an orientation to the AIE program and its partners as well as developing the components of a long-term (20 days or more) artist-in-residency program. It is strongly recommended that all newly approved artists attend both the orientation and the extended long-term residency training in order to facilitate a long-term residency. Additional training opportunities in discipline specific areas and current topics in arts education are offered through the NJ Arts Education Collective and Playwrights Theatre of New Jersey as part of the AIE program. ◆◆◆

## ARTIST RESPONSIBILITIES

The following is an outline of the AIE artist's responsibilities when conducting a residency. All artists sign a standard contract with a designated AIE Consortium partner and a school which defines these responsibilities in full detail.

- ◆ Work collaboratively with a school to design and carry out a project that includes pre-residency planning, student workshops, professional development workshop, field trips, performances and exhibits (where applicable), a project for community involvement and post-residency activities.
- ◆ Identify and work collaboratively with visiting artists.
- ◆ Submit a Final Report and Evaluation to NJSCA upon completion of the residency.
- ◆ Attend AIE Program meetings and professional development sessions to discuss their projects and to gain information about educational concerns and issues.
- ◆ Work collaboratively with the teacher in the classroom(s). ◆◆◆

## DESIGNING A RESIDENCY

To be a truly effective teaching artist requires mastery of an art form, and an ability to organize and communicate the concepts, skills and techniques of that form to students and teachers in an educational setting. Before writing a proposed residency take time to reflect on and evaluate your own creative processes. Explore and determine how you can break down those processes and present them sequentially over a 20-day residency (Creative Writing applicants design a 5-day residency, see below). The residency plan should demonstrate a thoughtful and logical progression of hands-on arts activities based on a cohesive idea. Consider grade level; reflect on medium and time frame when creating a residency plan.

The residency proposal gives the review panel an example of how you organize and communicate information about an art form, based on your own processes and interests.

FYI - visit NJSCA's website - [njartscouncil.org](http://njartscouncil.org) to review the AIE Residency Guidelines in order to understand the full scope and possibilities of the AIE program.

## CREATIVE WRITING

Artists applying in Creative Writing (poetry, fiction or playwriting) should design a 5-day residency.

Short-term writing residencies in poetry, fiction and playwriting are coordinated by Playwright's Theatre of NJ through the **New Jersey Writers' Project**. The five-day residency begins with the writer's planning visit to the site during which the artist and the staff collaboratively design the program. The writer then spends four teaching days visiting up to four classes each day, working with the same classes throughout the residency.

The following definitions may help you understand the NJSCA's philosophy for arts education and the design of the AIE Program. Please consult this section before drafting your narrative.

### **ARTS ACROSS THE CURRICULUM:**

Arts that are woven into the fabric of instruction regardless of the discipline being taught.

### **ARTS BASIC TO EDUCATION:**

Direct, sequential instruction and learning in the arts and its concepts, techniques and processes.

### **BASIC ARTS EDUCATION:**

A comprehensive body of knowledge of and skills in the arts that lead to proficiency for all students as a part of a complete preK-12<sup>th</sup> grade education.

### **CORE GROUP:**

The students who will work with the residency artist every day that the residency has student workshops. The focus of the residency for these students will be arts basic to education. On average, a core group consists of 25 – 30 students per class with a maximum of 3 classes.

### **PARTICIPATING STUDENTS:**

Students who work with the residency artist on a less regular basis than the core group. The focus of the residency for these students may be arts basic to education and/or arts across the curriculum. For example, these students might rotate through a designated period during the residency artist's day or attend related activities such as an assembly or a field trip.

## **PROFESSIONAL DEVELOPMENT WORKSHOP:**

## NJ ARTS EDUCATION PARTNERSHIP

The **New Jersey Arts Education Partnership (NJAEP)** was established in 2008 with the mission to provide a unified voice for a diverse group of constituents who agree on the educational benefits and impact of the arts, specifically the contribution they make to student achievement and a civilized, sustainable society. The NJAEP carries out this mission by providing a clearinghouse for information and best practices, providing opportunities for people to come together on topics of interest and initiating advocacy opportunities to effect public information and policy on arts education issues.

The NJAEP's major focus is to move forward the recommendations of the **New Jersey Arts Education Census Report, *WITHIN OUR POWER*** making it a dynamic document to create change in arts education for New Jersey's schools in the years to come. For more information on the NJAEP and the NJ Arts Education Census Report: Please go to [www.artsednj.org](http://www.artsednj.org) or contact Kristin Golden Wenger, Director, [kris@artsednj.org](mailto:kris@artsednj.org) or 973-327-2090

## NJ STATE COUNCIL ON THE ARTS

### GRANTS & SERVICES FOR ARTISTS

The NJSCA has developed a comprehensive program of services for individual artists that focuses on developing partnerships with other arts organizations and government agencies to provide financial support, technical assistance, professional development and information for NJ's independent artists. For information on these opportunities please contact the Council's Artist Services office at 609.292.6130.

### NJSCA Fellowships

The Council provides fellowships through a cosponsorship with the Mid-Atlantic Arts Foundation (MAAF). NJSCA Fellowships are awarded to practicing professional New Jersey artists to enable them to pursue their artistic goals. Fellowship awards are based solely upon demonstrated artistic excellence and not on any other merits that may be associated with a project or on any other factors. Artists may use fellowship awards to pursue work in their artistic discipline, including purchasing supplies, studying in a workshop situation, renting studio space, or otherwise freeing their time. Applications are available in April and are due in mid-July. Decisions are announced in early January. Recipients' work is highlighted in biannual Fellowship Showcases. Categories available include:

In even-numbered years: Painting, Works on Paper, Music Composition, Media, Design, Choreography, Emerging and New Genres in Visual Arts.

In odd-numbered years: Crafts, Sculpture, Photography, Interdisciplinary Performance, Fiction, Poetry, Playwriting.

**Artists and Communities** is a program of MAAF, supported by NJSCA, which provides grants to individual artists to design and execute residencies with non-profit organizations in other parts of the Mid-Atlantic region. Creative artists (choreographers, composers, poets, writers, filmmakers, media and visual artists of all kinds) are eligible to participate in residencies of one to six months in length. Activities supported include all approaches to community arts. The host organization applies on behalf of the artists(s). Details of the program, including guidelines and a directory of host organizations, can be found at [www.midatlanticarts.org](http://www.midatlanticarts.org).

### Career Development Workshops

A series of one-day conferences and special topic seminars presented annually by the NJSCA in partnership with other artist service organizations. These sessions offer skill building in areas such as business basics, tax planning, legal needs and rights, and getting your work noticed. Further information is available to all

## **Projects Serving Artists Grants/Commission of New Works Grants**

The NJSCA provides Projects Serving Artists grants to non-profit organizations for new or significantly expanded projects that provide programming or services to New Jersey artists. Currently the highest priority for funding in this category is activities that provide artists access to spaces for the production, rehearsal, and public presentation of works. In fiscal year 2007 the Council launched a new opportunity for non-profits to compete for grants for the Commission of New Works by New Jersey artists. These grants are not available to individual artists but are designed to create opportunities for them and to help build the infrastructure of support for them. Artists wishing to identify an organization to work on a project may contact the Council for more information.

## **New Jersey Arts Inclusion Program**

The Arts Inclusion Act of 1978 provides up to 1 ½ per cent of the costs of new state buildings erected at the expense of and for the use by the state, for the inclusion of fine artwork in such projects. Under the terms of the act, the State Council on the Arts determines the criteria to be used in the selection of artists. Since the inception of the program, over 400 public art projects have been undertaken and installed in state facilities throughout New Jersey. The program is firmly committed to commissioning works of art that provide an integrated design solution between the site and the visual work created.

**The Visual Art Slide Registry**, a non-juried slide bank, is a major resource used by art selection committees to identify artists to submit proposals for commissions. The registry is organized by medium such as painting, sculpture, photography, etc. Museum curators, art consultants, art galleries, architects and others use the Visual Arts Slide Registry for exhibitions, purchases and possible commissions. The slide registry is open to all artists however, the majority who are currently registered are

New Jersey artists. To date, there are over 5,000 artists on the registry. A slide registry application form may be obtained by contacting the Council. An appointment must be made to review the registry.

**New Jersey Arts Annual** is a unique series of exhibitions highlighting the works of visual artists and craftspeople in the State. Two exhibitions take place each year in alternating sequence: typically Fine Arts in the spring/summer and Crafts in the fall/winter. The series is cosponsored by the NJSCA and 6 museums across the state. All artists living or working in New Jersey are invited to submit entries.

**Folk Arts Apprenticeship Grants** are awarded annually to support the passing on of folk arts by enabling apprentices of a traditional art form to study with a master artist. Apprenticeship grants are based on excellence of the master artist, preparation and commitment of the apprentice, shared cultural heritage of master and apprentice, traditionality of the art form within the community and adequacy and appropriateness of the work plan and budget. Application deadline is in April. Decisions are made in July. ◆◆◆
